

CLINICAL TRAINING IN THE LIDCOMBE PROGRAM: A BEHAVIOURAL INTERVENTION FOR STUTTERING IN PRE-SCHOOL AGED CHILDREN

SEPTEMBER 28-29, 2018 – HOSTED BY:

The Lidcombe Program Trainers Consortium (LPTC)

ABOUT THE LIDCOMBE PROGRAM

The Lidcombe Program is a behavioral intervention developed by Mark Onslow and his colleagues at the Australian Stuttering Research Centre, to treat stuttering in preschool aged children.

After training, speech-language pathologists will be prepared to teach parents to administer appropriate feedback about fluency and stuttering to their children in every-day speaking environments and to monitor treatment goals and progress.

Studies have shown that this is an efficacious and effective evidence-based treatment for stuttering. The Lidcombe Program has been adjusted for school-age children and special populations.

MEMBERS OF THE LPTC

Canada:

Rosalee C. Shenker, Ph.D., CCC-SLP

Christina Lattermann, Ph.D.

Carla DiDomenicantonio, M.HSc.

United States:

Barry Guitar, Ph.D., CCC-SLP

Melissa Bruce, M.Sc. CCC-SLP

The Lidcombe Program course is offered for 1.2 ASHA CEUs (Professional area, Intermediate level). Disclosures: The presenters receive reimbursement for their presentations. No relevant non-financial relationships to disclose.

Location of Workshop:

6600 Peachtree
Dunwoody Road
Suite 600
Atlanta, GA 30328

REGISTRATION

All fees are in US \$
Space is limited!

Register at
